The Director
Prentice Computer Centre
University of Queensland

Dear Sir,

Re: Application for Provision of Account on bunyip

The Brisbane Public Access Network Association Incorporated (BrisNet) would like to apply for a UUCP account on bunyip.

BrisNet aims to provide e-mail and network news service to individuals in the Brisbane area. This will be done at no profit to BrisNet.

BrisNet is already a Mail Affiliate Member with AARNet, and AARNet has accepted the goals and aims of BrisNet as being suitable for connection to AARNet.

BrisNet requires people connected to it to ensure that all traffic destined for AARNet links conform to AARNet's Acceptable Use Policy.

Monitoring programs on the BrisNet hub will monitor traffic volumes and watch for any attempts to breach AARNet's and BrisNet's policies. A copy of the BrisNet Application for Service is attached for your information.

Because all links will be via UUCP, there is no threat of 'hacking' activities common to IP networks originating from BrisNet links. Preliminary tests have indicated that a connection to bunyip can be achieved without any problems.

BrisNet has submitted all paperwork and paid all fees necessary for incorporation to the Department of Justice, however, a certificate of incorporation will take several weeks to be issued. At this stage, the BrisNet Committee is capable of entering into a legally binding agreement with other entities, and once the certificate of incorporation is issued, BrisNet Incorporated will take over all assets, liabilities and contracts.

We would like to arrange a meeting to discuss our association and apply for an affiliate feed via your services.

Yours faithfully,

Rhys Weatherley
President
Brisbane Public Access Network Association

AARNet Mail Affiliate Membership Application

On behalf of the organisation listed below I wish to apply to be a Mail Affiliate Member of AARNet, and accordingly request that the Australian Vice-Chancellors' Committee maintain on my behalf an electronic mail delivery record in the Australian Academic and Research Network (AARNet) to allow my organisation to send and receive electronic mail carried across AARNet.

I understand that I will be invoiced for this service for subsequent years unless the AVCC receives my organisation's written advice to terminate the Affiliate Membership of AARNet. I understand that the AVCC has the right to obtain mail logs maintained by the organisation providing my organisation's mail gateway service to confirm that the volume of mail transmitted/received by my organisation is within the limits specified in the schedule or charges below.

I understand that the AVCC maintains the right to vary the Mail Affiliate Membership charges from year to year, and maintains the right to cease offering this service to my organisation at the start of any year, at their discretion. I understand that in the event of any variation of the Mail Affiliate Membership of AARNet, my organisation will be advised in writing by the AVCC to the address below.

I understand that in consideration of the AARNet Mail Affiliate Membership charge, AARNet will undertake to maintain a mail directory entry which will direct incoming electronic mail to the gateway system(s) which I have nominated below. Furthermore I accept that there is no other undertaking made by AARNet in terms of reliability of mail delivery or any other form of undertaking by AARNet or the AVCC in consideration of the payment to AARNet for the maintenance of the mail directory entry on AARNet.

My organisation undertakes to use AARNet facilities within the terms and conditions stated in the AARNet Acceptable Use Policy. I accept the right of the AVCC to immediately terminate this service at their discretion if these undertakings are abused by my organisation (where the AVCC retains the right to determine what constitutes such abuse).
