Alan

I trust that the rest of your stay in New Zealand was a good break for you, that the weather wasn't too unkind and that Pam recovered quickly and completely so she could enjoy it too.

I assume we are still going ahead with the meeting on Sunday 29 November? I need to know pretty soon as I have a very complex set of travel to puttogether in the days around that. I have to be in Adelaide on the Wednesday/Thursday before, then Melbourne on the Thursday/Friday, then back to Adelaide again on the Friday evening and Sydney on the Saturday. Assuming our meeting IS still on, I will stay overnight in Sydney on the Saturday and travel to Brisbane on the Sunday morning early.

Don't know yet whether I will be able to stay around for the Networkshop, but some of my staff will be there in any case. I may HAVE to be here as both Mike and Brad will be away and I have 3 rather important meetings in addition. Life was not meant to be easy!

Please confirm the Questnet meeting as soon as you can. Thanks.

Regards

Ian

Some suggestions are ~~TAFE~~ NETWORKING WITH TAFE, ~~NETWORK~~ SECURITY, DIRECTORY PROJECTS, COPYRIGHT AND DIAL-UP MODEM ACCESS, LIBRARY IMAGING PROJECT, AARNET/QUESTNET FUTURES ~~AND~~ REPORT ON OVERSEAS VISIT FROM G. REES AND OTHER MATTERS ~~SITE~~ eg SOFTWARE SITE LICENCES (DIGITAL etc), STATE GOVERNMENT PURCHASING POLICY, AWARD RESTRUCTURING

Alan

This is a repeat of a message I sent about 10 days ago.

I really do have to make my travel arrangements soon and would
appreciate confirmation of our next Questnet meeting.

In addition, as I mentioned in my report to CCDIRECTORS on my meeting
with Dianne Edwards of Digital, I suggested to Dianne that she might
address the Queensland Directors at our meeting. I need your OK for
this so I can invite her formally.

Ian
