Subj: Questnet memo to VCs

Alan,

I had trouble reading my own writing so I thought I should send you something legible. My notes follow:

1. History of Questnet
  - relationship with State Govt
  - regionalisation
  - special qld developments
2. Future development of Questnet
  - Distance Ed, QOLN, TAFE, OLI
  - distribution of network
  - solutions different in different states
  - Qld govt initiatives
    - Supercomputer centre (implications for network upgrades)
3. Regional problem beyond backbone spine
  - option of using our own resources re comms (eg., Pacific Star)
4. Size of bandwidth from qld to AARNet should be main issue
5. Control of Qld affiliate membership through Qld

That's all I had.

Cheers,  
Geoff.
