Subj: RE: QUESTNET/AARNet Organisation

Alan,

Chapter 3:

Certainly a regional membership model wont suit all areas. And as we move foward in this networking area with the range of options & opportunities being considered (and in some cases developed) in different parts of the country, I think that any model we come up with now will probably need revision within a year or two to accomodate changed circumstances.

Hence I feel AARNet must be looking to some form of hybrid model which allows a number of membership categories so we can roll with the times.

John
