

Alan,

The attached letter was sent to the VCs /  
Directors of all Qld institutions with  
copies to Heads / Directors of Computer Centres,  
seeking support for the specific policies  
outlined.

Minutes of last two QARN Management  
meetings attached.

Incidentally were trying (I will I think)  
change the name of QARN (not to QARN) but  
to QUESTnet  
Queensland Education, Science & Technology Net.

The others are papers from the Adelaide  
workshop. I basically agree with  
Robin Robinson's management structure  
but with stronger regional management,  
control & autonomy - if ~~was~~  
if wanted by the region.  
eg Tasmania wants to be centrally  
managed.

Graham R.
