Thanks for your comments on the AARNet organisation. I've got a bit of a problem, as there is a meeting on these issues next week that I've been invited to, but can't go to. Coulter has also been invited; can you make sure he is properly briefed?

I will send you copies of the comments on the AARNet management and terms/coinditions documents that I have sent to Geoff. If you agree with any of them, can you make sure that Alan knows about them, and is prepared to push for something like them?

Because of the possibility that you may be on holiday, I'd like you to reply to confirm receipt. I'm going into town now; if I don't hear from you tomorrow, I'll try ringing.
