I've no objection to UoQ signing Digital's standard research agreement for the
Directory Services Project being conducted on behalf of AARNet. All equipment
purchased remains the property of AARNet.

Geoff Huston
Network Technical Manager,
AARNet
4/3/91

I think Alan wanted the above paragraph back to him - can you please cut out
this from the rest of the message and put it on his desk - It seems easier than
faxing :-)

thanks

Geoff

Funding Request from Digital

Allowance toward the purchase of Digital product	$100,000
List Price of Product	$150,000

Funding from Other Sources

This project is part funded by the Australian Vice-Chancellors Committee ($80,000) and the five participating institutions (estimated $300,000).

Research Abstract

The AARNet Directory Services Project will research the requirements for implementing and managing a national electronic directory, based on the CCITT X.500 Recommendations, by implementing a pilot, distributed directory service for each of the
