Subj: Seeking email addresses

(I was mailing a cut down list individually to each site, but it was taking hours just to complete the NSW institutions, so I'm trying to speed up the process - as a consequence you'll have to put up with this bulk mailing to everyone and pick out your own site from the list!)

The AVCC is wishing to set up all of its 1991 committees as email lists over AARNet. Accordingly they are seeking the addresses for all members of the various AVCC committees, and have asked me to compile this list in the first instance.

Could you please search the attached list for your institution (and yes, CSIRO is there as well!) and please respond back as to whom on the list are on email, and, if so, what their addresses are.

Many thanks for your help,

Geoff Huston
